# Joint Referral Form 

Slope Analysis and Maximum Residential Floor Area Verification Form<br>Single Family Zone Hillside Ordinance No. 181,624 and 184,802

## Instructions:

1. This form is used by the Department of Building and Safety and City Planning to determine a permitted maximum Residential Floor Area for a project (new construction or addition to existing construction) in the R1, R1H, RS, RA and RE zones located within the Hillside Area as defined in Section 12.03 of the Code.
2. Proposed construction subject to Hillside Area Requirements will be accepted for Plan Check by the Department of Building and Safety, only if the Slope Analysis Verification Form has been verified and signed by the City Planning staff.
3. Complete Section I, II and III on page 2 and submit this form along with two copies of the Slope Analysis map prepared by a State of California registered Civil Engineer or Licensed Surveyor that includes the following information for the proposed construction site to the Department of City Planning at one of the locations listed below (item No. 4).
a. A slope Analysis Map based on a survey of the natural/existing topography, prepared, stamped and signed be a State of California registered Civil Engineer or Licensed Land Surveyor. The map shall have a scale of not less than 1 inch to 100 feet and a contour interval of not more than 10 feet with two-foot intermediates. The map shall also indicate the datum, source and scale of topographic data used in the slope analysis, and shall attest to the fact that the slope analysis has been accurately calculated.
b. The Slope Analysis Map shall clearly delineate/identify the Slope Bands (i.e., with contrasting colors or hatching), and shall include a tabulation of the total area in squarefeet within each Slope Band, as well as the RFAR and Residential Floor Area value of each corresponding Slope Band as shown on Table 12.21 C.10-2c.
c. The Slope Analysis Map shall be prepared using CAD-based, or other type of software specifically designed for such purpose.
4. City Planning staff are located at the following locations:
```
Downtown Office
City Planning Counter (Station 7)
201 N. Figueroa St., 4 }\mp@subsup{}{}{\mathrm{ th }}\mathrm{ Floor
Los Angeles, CA }9001
(213) 482-7077
```

## Van Nuys Office

City Planning Counter
6262 Van Nuys Blvd., Suite 251
Van Nuys, CA 91401
(818) 374-5050

Slope Analysis and Maximum Residential Floor Area Verification Form

SECTION I. Name Applicant(s) / Property Owner(s): Address: $\qquad$ Phone Number: $\qquad$

SECTION II. Project Address: $\qquad$ Lot: $\qquad$
Tract: $\qquad$ APN: $\qquad$ - $\qquad$ -

Proposed Project Description: (describe proposed work in detail)

SECTION III. Circle the Zone of the project site in Table 1 or Table 2 and complete Worksheet 1.

| Table 1 Single-Family Zone Hillside Areas Residential Floor Area Ratios (RFAR) [Table 12.21 C.10-2a] |  |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Department of Building and Safety / City Planning

Slope Analysis and Maximum Residential Floor Area Verification Form

SECTION IV. (To be completed by City Planning Staff)
Approved Maximum Residential Floor Area for the property listed below: $\qquad$ (sq. ft.)

Property Information:
Lot: $\qquad$ Tract: $\qquad$
Assessor Parcel number: $\qquad$
City Planning's Staff:

2 Sets of Slope Analysis Maps Stamped and Signed
Yes $\qquad$ No

Name (Please Print):
Signature:
Date:
Notes:

[^0]:    * Residential Floor Area shall be calculated as defined in LAMC Section 12.03.
